## PROFILE

---

A dedicated and results-driven computer engineering student with experience in project development, programming, and brand promotion. Skilled in Django, C++, and web development. Proven ability to adapt quickly, work effectively in teams, and communicate clearly. Additionally, I have hands-on experience as a home tutor, developing strong teaching and interpersonal skills. Always eager to learn and apply new skills, I am committed to delivering high-quality results in any task I undertake.

## SKILLS

---

Coding

Python

Teaching

Communication

Strategic thinking

## EXPERIENCE

---

Nobel Brand Ambassador

**2081**

Represented the brand through events and outreach initiatives, driving visibility and engagement with target audiences. Developed strong communication, marketing, and organizational skills while fostering connections and ensuring the brand's values were effectively conveyed.

Internship Experience

**2081**

Contributed to brand promotion and event coordination, developing communication, teamwork, and marketing skills while achieving impactful results in a professional setting.

Technical Projects

**2080-2081**

Developed a web application called The Khwopa Retrieval, A platform to report and search for lost/found items

Home Tutor

**2077-2081**

Provided personalized lessons to students, adapting teaching methods to suit their individual learning styles. Focused on simplifying complex topics, which led to improved student performance. This role helped me develop strong communication, problem-solving, and time-management skills while fostering a supportive and motivating learning environment.
